The football team finished the season with a record of 3-8. The team reached success this year when they earned a spot in the playoffs- an oppurtunity they haven't had since 2007. Great season boys!

"This team worked hard from day one and earned a playoff *something* for the first time in 6 years. We restored the pride in Warrior football, and we had a lot of fun doing it. You are all my brothers, and I was proud to be your captain"
- David Couglin

And the rest of you, good luck next season, soak up every second under those lights" - Ross Bovarnick

"I'm exceptionally grateful to have had the opportunity to play alongside such a great group of guys over the last few years. Here's To You, Ms. Nunes!

Medfield will bid *adiós* to Dean of Academics, Ms. Kathleen Nunes, as she wraps up her work in September of 2014. Ms. Nunes leaves Medfield after thirteen years of service as an administrator. But there's much more to her story.

Ms. Nunes wanted to be a teacher ever since she was a little girl, and enjoyed "playing school." Her dream was later realized when she headed off to Framingham State University to pursue a degree in education. Especially fond of the Romance Languages, Nunes majored in French and double minored in Spanish and Education. She began teaching soon after at the junior high level for five years before returning to Boston College to obtain a Master's degree in both languages. She then found her niche in high school level instruction, teaching Spanish at Concord-Carlisle High for one year and then Brookline for fifteen years, where she was also the associate Dean of Students. Ms. Nunes stayed quite busy obtaining a Masters in Educational Administration at U. Mass. Boston. She finally settled in at MHS in 2001.

The advice that she wishes to leave behind is that which she effectively followed during her tenure: "If you don't like something, change it. If you can't change it, change the way you think about it; don't complain," said Maya Angelou. "It doesn't do much good to complain about things," adds Ms Nunes. The dean's projects are numerous, and each is quite impactful in its own way. Students have Ms. Nunes to thank for a varied lunch schedule on block days. Recently, Ms. Nunes' successes were of the technological sort: she created a "group calendar" on Edline that enables teachers to view all other grade-level assignments, so they can be careful not to overload students with exams on a particular day. "It has been wonderful to work at a high school where the teachers care so deeply about their students and put so much effort into planning great lessons," she says.

As for her future plans, Nunes plans to continue pursing her passion for learning. With an up-to-date Spanish teaching certification, perhaps she will tutor or substitute. She also hopes to spend more time agility training with her dogs, a German Shepherd and a Rat Terrier. An avid bicycling enthusiast, Ms. Nunes also would like to someday participate in a fifty-mile bike event.

Though we wish her much happiness in her retirement, MHS will miss Ms. Nunes' presence at the school. *Buena suerte* in your future, Ms. Nunes. We hope that you continue learning and always keep an open mind.

"You are a listener and someone who values the input of others. Thank for your value of the MHS team.
I always knew I could discuss any issue with you, academic or personal. Thank you for your approachability.
You brought to Medfield High School your creativity.
Thank you for your gift of song.
You will be missed, and I wish you the best as you leave Medfield High School."

-Mrs. Sabra

"Ms. Nunes always knows how to make advisory my favorite part of the day. As a group, we learned some sign language, collected supplies to support an Eagle Scout project, and so much more. I am so happy I have gotten to know Ms. Nues during my four years at MHS."

-Kara O'Connell

It has been awesome to be a part of Ms. Nunes' advisory. She is such a kind mentor and constantly worked hard to improve academics as a whole. We will miss her."

-Cami McCurdy

"Ms. Nunes has been a mentor and a friend to me for the thirteen years that we have shared in Medfield. She is incredibly intelligent and thoughtful about every decision that she has made. Under her direction, Medfield has seen a lot of change. Change can be very hard for people, but Ms. Nunes takes the times to listen, gather multiple perspectives and build consensus rather than forcing a decision. Ms. Nunes will be missed by many faculty and students. I wish her all the best in all of her future endeavors."

-Mrs. Mandosa

We'll Miss You, Mrs. Hardy!

At the end of the school year, Medfield High will bid adieu to Mrs. Adele Hardy, our beloved consumer science teacher of over 30 years. Mrs. Hardy teaches the essential skills that kids will use in everyday life: not just cooking and caregiving, but following instructions, treating others with kindness and respect, and other important tasks for starting a life apart from parents. "I teach hands-on learning that [students] enjoy learning about," Mrs. Hardy recaps. In her classes, kids learn skills that are truly "relevant to society."

Teaching has always been a part of Mrs. Hardy's life. Her father taught woodshop and later computer skills at the town high school while her mother was a nurse. After college, Mrs. Hardy instructed at Silver Lake Junior High in Kingston, MA for two years. She later worked as a home economist for the Stop and Shop Supermarket Company, followed by her position as a "cranberry recipe tester" at Ocean Spray Cranberries, Inc. Mrs. Hardy settled into teaching when she started at Norwood High, finally coming to Medfield in the 1980s. On her decision to apply for a job at Medfield, Mrs. Hardy speaks of a particular interview question that she remembers three decades later. "[the interviewer] asked me, 'if [I] could put anything in a time capsule for people to remember years later, what would that be?'" She paused here, and answered simply, "A smile."

Mrs. Hardy's fondest memories are centered around the experiences that she has had with both faculty and students. She loves when former students come back on holidays from college to visit and tell her that her class "made a difference" in their lives. Students will fondly remember their favorite recipes cooked up in Foods, especially: chicken broccoli ziti, alfredo casserole, apple pie, and huevos rancheros.

Mrs. Hardy also hopes to keep in touch with the many fellow teachers that have become her dear friends over the years. She hopes to return to sub or teach part-time. She'll hopefully cross some items off of her bucket list and do some much earned traveling and relaxing. Said Maya Angelou, "I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel." Kudos to you, Mrs. Hardy; we know that you will to continue to inspire everyone that you meet!

"I have known Mrs. Hardy since we first worked together in this building in the 80s when it was the junior high school. There has never been a more dedicated, professional and caring teacher who always put her students first. Whether helping them with personal problems, developing new and exciting programs or expanding their horizons for their future choices she has always been there to help. I am truly sorry to see such a great colleague retire and she will be greatly missed."

-Marty Salka

"The best teachers teach from the heart."

-Mrs. Blessington

"Mrs. Hardy, thank you so much for always being there to put a smile on my face when I needed it the most. I will miss you so much."

-Lindsay Soderland

"Thank you for always being our Mama Hardy. Thank you for everything that you have taught us, from cooking skills to parenting. You helped make our high school years memorable. We will miss you."

-Kristina Gustafson

"Mrs. Hardy comes in every morning with a smile on her face. We love her bubbly personality and enthusiasm for teaching. MHS won't be the same without her! Mrs. Hardy, you will be missed!"

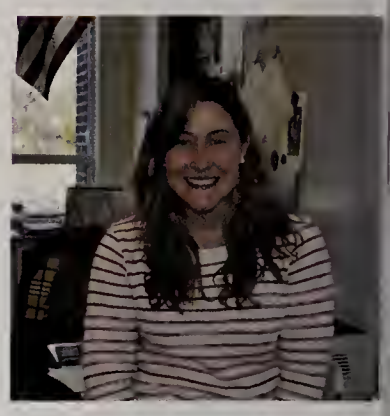
We Asked... They Shared...

What was your favorite funniest/craziest experience with a student of the class of 2014?
"When Jake Lester told me it was all down hill after 30, the day after my 30th birthday!"

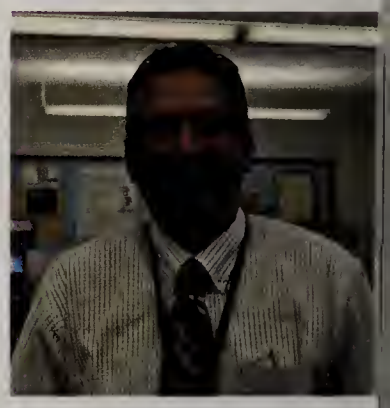
Mrs. Lohan

When were your parents most mad at you and what did you do?
"I drove my brand new Jeep into a telephone pole right across the street from the police station. Needless to say, I was forced to drive the family station wagon after that!"



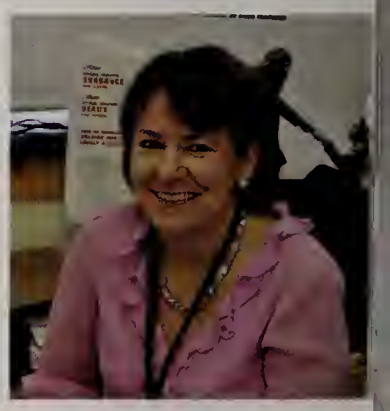
Ms. Alland

When were your parents most mad at you and what did you do?
"I had no desire to participate in the dissecting of live frogs. Having heard the stories of the atrocities inflicted upon these captive creatures during third period I went up to my classroom on the third floor of the high school to inform my science teacher that I would not be in class. He was at lunch. It was then I decided to liberate the remaining lab "rats". Loading them into one of their shipping cartons, I simply walked out the main doors and headed for the far side of Milford Pond where I set the frogs free. No one said one word to me. I recieved a five day suspension, reduced to a two day in school by my guidance counselor. My parents added to that punishment."



Mr. Speroni

What do you think is the most ridiculous social norm from your high schoool experience?
"My school had a smoking lounge for students... hey it was the '70s!"



Mrs. Emerson

What is the most embarrassing thing you have ever done in the classroom?
"I was gawking at Bruce Jenner on the cover of Sports Illustrated (ew - that sounds creepy now) because he was my sports idol. To get my attention my geometry teacher threw an earaser at me. I was so humiliated I walked out of class. He put my books out in the hallway. I never forgave him for that."

Dear Christine,
When you were very young, you heard someone say: "I can't tell if the glass is half full or half empty." You immediately replied: "Why not just get a new glass?" That's you: A true original. Your keen wit and your great heart have transformed even the most ordinary days into joyful theater. You're a wonderful daughter and an amazing sister. And now the world's your stage.

From the day the 3 of us were brought together in the world, it's been pure fun. From exploring every inch of a resort to playing "Baby Go-Ga go back to bed" to summertime watching Disney Channel 'til 2am -we cherish it all. Although you may have skipped out on washing dishes a few times, I think we can deal :)
You always keep us smiling with one of your classic Boog jokes. We couldn't ask for a better sister!
Love, the Bros

How did we get so lucky? You've heard these words before. We see the man that you are becoming in so many things that you do and say. Soon you will be off in the world searching for your own answers, but if you ever need a hug, want to share good news, have a question or a problem, are looking for a home cooked meal or (limited) laundry services...we're here.
Love you man, M&D

Remember what is most important... It's not having everything go right; it's facing whatever goes wrong. It's not being without fear; it's having the determination to go on in spite of it. Remember that every day ends and brings a new tomorrow full of exciting new things. Love what you do, do the best you can, and always remember how much you are loved.
We are so proud and wish you such happiness!

Tessa Oliver, Born May 16th, 1996, Paris, France
Diana Vreeland, the legendary editor of Harper's Bazaar and Vogue was a woman who danced with Josephine Baker, rode with Buffalo Bill, collaborated with Coco Channel and was friends with Presidents and Kings. Despite no formal education she "lived" history. She once said, "There's only one good life, and that's the one you go and make yourself." And how does it begin? To that she said, "The first thing to do is to arrange to be born in Paris," and "after that, everything follows quite naturally." So Tessa, let everything else "follow naturally" and don't waste any of the advantages life has gifted you!

A Dedication in Memory of...

George Callahan

July 27, 1942 - November 6, 2013

...teacher...coach...leader...
36 years master math teacher -- 1964-2001.
13 years retired substitute and part-time teacher -- a 49 year legacy.
Quarter century as golf coach - a half dozen TVL titles and two state championships.
Three decades of selfless leadership for the Teachers Association.
You will be remembered as:
...professional...caring...dedicated...

-Best friend and colleague, Bernie Shea

2005: Second Place in States

Mr. George Callahan truly loved the entire Medfield High School Community. He even continued coaching golf and substitute teaching during his retirement to keep his connections with staff and students strong. Callahan also possessed a remarkable understanding of mathematics and routinely demonstrated a genuine love for the subject. George was our go-to guy when a question on theory came up! Mr. Callahan was always willing to take time out of his day to share his expertise with his colleagues.
Our dear friend George will be fondly remembered and sincerely missed.

-The MHS Math Department

"George Callahan will forever be remembered at MHS for being an outstanding teacher and coach. His generosity and passion to help others truly made him one of the nicest people I have ever met. His love for golf was clearly evident as being a coach for 21 years and leading Medfield to their first boys' state title in the entire school. Words cannot describe how thankful Medfield is for having had the opportunity to be blessed by his presence. Mr. Callahan will forever be in our hearts." **-Dan Neidermire**

"His passion for the game couldn't be beaten. He was the most dedicated coach I have ever met."
-Nick Scales

"No one has inspired me more as a player or more importantly as a person. The last four years have been a privilege to be under your leadership. You instilled character and respect into every player of yours. Your dedication to us and desire to help every kid built you an unforgettable reputation."
-Brett Thomas
